

FlowJob Web Developer

This role with FlowJob is a massive opportunity to be a key player in a dynamic new startup based in Belfast. We're looking for a developer to join our team and help us build us a cutting edge, fast, compliant and attractive web application. We're looking for a highly motivated, detail oriented, technology loving individual who is passionate about what they do and wants to build something they'll be proud of.

Experience is essential - we don't have time for learning on the job. You need to have real world experience in developing websites using ASP.net MVC and the latest best practices and code libraries.

The skillset we are looking for is as follows:

Highly experienced with

- C#
- ASP.Net MVC
- SQL Server (2005/2008)
- HTML / CSS / JavaScript (jQuery)
- WCF / Web Services (XML & JSON)

Experienced with

- Source Control
- Design patterns
- Unit Testing

Desirable

- Agile or Iterative Development
- SOLID Principles
- Test Driven Development
- Cloud Computing (Amazon AWS/Azure)

We plan on growing our development team strongly over the upcoming months so you need to be a team player and be able to take instruction and work closely with others in an intense results focused environment. We require a thirst for learning and innovation, combined with a sense of urgency and a strong work ethic.

We have fantastic offices in the city centre and a dynamic working environment.
